The LYA Standard — Official Definition

One score. One proof of quality.

Not a crypto. Not a currency.

A structured standard — tracked, scored and audited by professionals.

Asset-backed & audited

Every certified project is validated by the LYA Committee.

Revenue Participation

Proportional participation, defined at each milestone reached.

From \$50

REFERENCE VALUATION — EVOLVES WITH CERTIFIED MILESTONES

Key takeaway: the LYA Score is neither a financial security nor a negotiable instrument. It is a quality and trust standard.

IMMUTABLE REGISTRY

Every certification is timestamped and indexed, accessible to stakeholders at any time.

CONTINUOUS AUDIT

The score evolves at each verified milestone, never arbitrarily or speculatively.

FULL TRANSPARENCY

Complete history accessible to creators and engaged patrons on a project.

Not a crypto

An audited standard, never speculative.

Asset-backed audit

Validated by the Committee, registry-indexed.

Why 5 pillars

Like a credit rating, cross-referenced.

THE HISTORICAL PRECEDENT

Moody's did the same for debt in 1909. An objective rating standard has always preceded the rise of a previously illegible market.

The LYA Score — Proprietary Algorithm

LYA Score. Certified.

A three-layer algorithm: algorithmic analysis, professional validation, committee certification. Like Moody's — but for creative works.

WHAT YOU ACTUALLY SUPPORT

Supporting a project does not make you a LinkYourArt shareholder. You sign a direct revenue-participation agreement with the certified project — a real right, but personal and non-resellable.

Algo

DATA-DRIVEN SIGNAL

The Committee's human expertise weighs more than the algorithmic signal alone in the final score.

WHY 5 PILLARS, NOT ONE SCORE?

A composite score prevents any single dimension from dominating — like a credit rating cross-referencing multiple indicators. Discretionary Committee adjustment capped at ±50 points, always justified in writing.

Platform — Certification Registry

Discover. Certify.

The LYA Registry spans nine creative industries. The LYA Score reflects a project's real state — not every profile is certified, and that is precisely what gives it value.

FILM	TV SERIES	FASHION
CERTIFIED	UNDER REVIEW	AUDIT IN PROGRESS
NOIR: THE AWAKENING	CHRONICLES OF ELDON	SILK ROUTE
Neo-noir cinematic experience. Complete file, validated by the Committee.	Sci-fi series, pilot season. Partial file, currently being completed.	Capsule collection. Funding milestones undocumented on one pillar.
LYA Score	LYA Score	LYA Score
928/1000	580/1000	420/1000

Not every submitted project is certified. Status evolves with the file: **Certified** (complete, validated file), **Under Review** (partial file), **Audit in Progress** (missing evidence on a pillar). The LYA Score is never a formality — it's a real, traceable state at all times.

Film · Fashion · Fine Art · Architecture · Music · Podcast · TV Series · Photography · Gaming — nine sectors already covered, more every quarter.

HOW A STATUS EVOLVES

1

FILE SUBMITTED, ALGORITHMIC ANALYSIS BEGINS

2

COMMITTEE REVIEW, MILESTONES VERIFIED ONE BY ONE

3

CERTIFICATION PUBLISHED ONCE FILE IS COMPLETE

A project can move from "Audit in Progress" to "Certified" within weeks, as soon as missing evidence is provided — the Registry tracks this progress in real time, milestone by milestone.
